ADAPTING TO CLIMATE CHANGE

Tell the Tale

Chapter Four of this book discusses the possibility of floating cities. Imagine you are at a meeting where scientists and engineers show a model for a floating city. Write 200 words about important parts of the model. What questions would you have about this invention? Do you have any ideas of how to make floating cities successful and safe?

ADAPTING TO CLIMATE CHANGE

Why Do I Care?

Maybe you do not notice climate change in your daily life. But that doesn't mean you can't think about how it affects Earth overall. How does where people live affect their experience with climate change? How might your life be different if you lived in a coastal city that floods often or a dry place at risk of drought or wildfire?

ADAPTING TO CLIMATE CHANGE

Another View

This book talks about ways people adapt buildings to climate change. As you know, every source is different. Ask a librarian or another adult to help you find another source about buildings and climate change. Write a short essay comparing and contrasting the new source's point of view with that of this book's author. What is the point of view of each author? How are they similar and why? How are they different and why?

ADAPTING TO CLIMATE CHANGE

You Are There

This book discusses smart farming methods. Imagine you own a farm. Write a letter home telling your friends about your business. Where is your farm located? What natural wildlife lives there? Which crops are you going to grow? Which smart farming methods will you use? Be sure to add plenty of detail to your notes.
