## **Tell the Tale**

Chapter Two of this book discusses a scientist's experience looking at the effects of glaciers on a landscape. Imagine you are in a similar location. Write 200 words about what you see in your surroundings that were affected by glaciers.

## **Say What?**

Studying climate change can mean learning a lot of new vocabulary. Find five words in this book you've never heard before. Use a dictionary to find out what they mean. Then write the meanings in your own words, and use each word in a new sentence.

## Take a Stand

Climate scientists agree that it is up to people to change their behavior to stop climate change. But many people do not want to change their behavior. Do you think everyone needs to do something to help stop climate change? Or do you think a small group of people will be able to reverse climate change? Why?

## Why Do I Care?

Maybe you do not live in a place where it is easy to see climate change at work. But that doesn't mean you can't think about places where climate change is hurting communities. How does climate change affect your life? Do you have family members who live in places where there are fires or drought? How might your life be different if climate change were easy to see?
