UNDERSTANDING COVID-19

Another View

This book talks about how new information about the virus continues to be learned by scientists. As you know, every source is different. Ask a librarian or another adult to help you find another source about this event. Write a short essay comparing and contrasting the new source's point of view with that of this book's author. What is the point of view of each author? How are they similar and why? How are they different and why?
