

Magnets in the Real World

Take a Stand

This book focuses on magnets and magnetism. It also gives information about machines that use magnets. Which type of magnetic machine has had the most lasting impact on society? Why? Write a short essay explaining your opinion. Include your reasons for your opinion, and give some facts and details to support those reasons.

Magnets in the Real World

You Are There

Imagine that you are inventing a new device that uses magnets. What do you want it to do? How will it work? Write 300 words describing your process. What parts will you need? How do you know the device will work? What kind of research do you need to do?

Magnets in the Real World

Why Do I Care?

This book explains how magnets are used every day. List two or three ways you use magnets in your life. What machines do you use that contain magnets?

Magnets in the Real World

Dig Deeper

What questions do you still have about magnets after reading this book? Do you want to learn more about the earth's magnetic field? Or magnets in machines? Write down one or two questions that can guide you in doing research. With an adult's help, find a few reliable new sources about magnets that can help answer your questions. Write a few sentences about how you did your research and what you learned from it.
