# GREAT MINDS OF SCIENCE

## Albert Einstein

### Why Do I Care?

It may be difficult to see how Einstein's theories relate to real life. He wrote about things that nobody could really see, such as curves in space and time and the movement of tiny atoms. But as you have read, his theories led to many new inventions. How might your life be different if Einstein never came up with his theories? Write down two or three ways Einstein's theories connect to your life.

### Dig Deeper

After reading this book, what questions do you still have about Albert Einstein and his ideas? Do you want to learn more about Einstein's life? Or understand more about the theory of relativity? Write down one or two questions that can guide you in doing research. With an adult's help, find a few reliable sources about Einstein that can help answer your questions. Write a few sentences about how you did your research and what you learned from it.

### Tell the Tale

Chapter Five of this book describes Einstein's move to the United States. Write 200 words that tell the story of Einstein's move. Describe how he may have felt as the Nazis rose to power and his life was in danger. How do you think he felt as he moved to the United States, knowing he might never return home? Be sure to set the scene, develop a sequence of events, and write a conclusion.

### Another View

This book has a lot of information about Albert Einstein's life and work. As you know, every source is different. Ask a librarian or another adult to help you find another source about Albert Einstein.

Write a short essay comparing and contrasting the new source's point of view with that of this book's author. What is the point of view of each author? How are they similar and why? How are they different and why?
