

SEARCH-AND-RESCUE ROBOTS

Tell the Tale

Chapter One starts with the story of robots at a disaster site after an earthquake. Imagine you're in the fire department facing the same situation. Write 200 words describing why you would send a robot to search a building for survivors instead of sending in human firefighters or search dogs.

SEARCH-AND-RESCUE ROBOTS

Dig Deeper

After reading this book, what questions or concerns do you have about the future of search-and-rescue robots? Look online for additional information on ways rescue teams can use robots. Write a paragraph about what you learned.

SEARCH-AND-RESCUE ROBOTS

Surprise Me

Chapter Four discussed examples of search-and-rescue robots in action. After reading it, what two or three facts about these robots did you find most surprising? Write a few sentences about each fact. Why did you find each fact surprising?

SEARCH-AND-RESCUE ROBOTS

Why Do I Care?

Maybe you have not experienced a major disaster. But you still can consider how robots might help save lives. How would you feel if a robot helped rescue you?
