## Physics in the Real World

### Say What?

Physics is a complicated field with a difficult vocabulary. Find five words in this book you've never heard before. Use a dictionary to find out what they mean. Then write the meanings in your own words, and use each word in a new sentence.

### You Are There

This book talked about several physicists who were pioneers in the field. Ask a librarian for help finding a biography on one of them. Pretend that you lived in their time, too. Write a letter home telling your friends all about the great new discoveries the physicist is uncovering. Be sure to add plenty of detail.

### Dig Deeper

After reading this book, what questions do you still have about physics? With an adult's help, find a few reliable sources that can help you answer your questions. Write a paragraph about what you learned.

### Another View

This book talks about the Higgs boson. Some researchers believe that the Higgs boson has already been found. Others disagree. Ask a librarian or another adult to help you find a source from each side of the argument. What is the point of view of each author? What evidence do they use? How are they similar and why? How are they different and why?
